DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on March 8, 2004 has been entered.

Allowable Subject Matter

Claims 1-28 are allowed in view of the prior art.

The following is an examiner's statement of reasons for allowance:

As to claims 1, 8, 14, 18, and 19, please see the statement of reasons for allowance in the previous Office Action, the Final Rejection of September 8, 2003.

As to claim 21, the prior art of record, taken either alone or in combination, fails to disclose or render obvious an exposure apparatus that forms an image on a substrate, in combination with the rest of the limitations of the claim.

Regarding claim 21, the applicant's arguments lay out specific reasons for the allowability of the claim over the prior art. In particular, the prior art fails to disclose the constant monitoring, by interferometer, of the positions of the first and second stages at all times, and the art fails to disclose that, "during movement, each stage holds the second substrate that has had the second operation performed thereon in the second operation area", in combination with the rest of the elements and limitations of the corresponding claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
